1. What would you say – is mathematics discovered or invented?

2. Pay attention to the following figures.

a. Match the name and the picture.

Albert Einstein - Henri Poincaré - Eugene Wigner - Euclid - Plato - David Hilbert - Gottfried Hardy - Leopold Kronecker - Fibonacci - Bernhard Riemann - Pythagoras

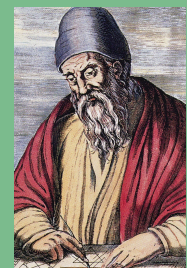

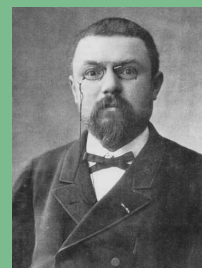

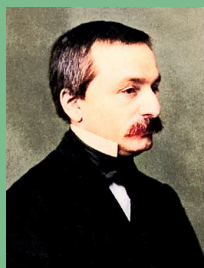

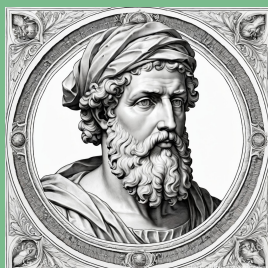

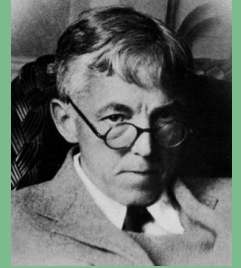

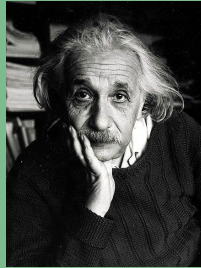

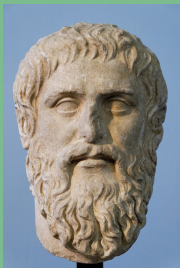

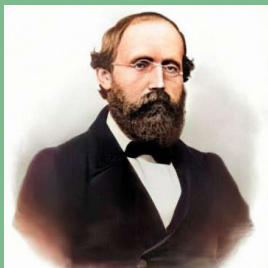

b. Put them in the right chronological order.

c. Discuss with your partner: which side do you think their maths would be on? Why? Which argument could be used? Do you think about other points to make?

3. Check whether you were right by watching the video available on Célène.
