

In groups, you will have to rely on both your analytical and creative skills to imagine the plot of the short story entitled

BearHeart™

- 1. Carefully analyze the title: you may pay attention to vocabulary, meanings and polysemy; grammar, syntax and structure; sounds; and visual or typographical aspects.**
- 2. Use those elements to imagine the content of the story. What happens in “BearHeart™” ? Develop with as many details as you can and choose a spokesperson to deliver your story.**
- 3. To accompany your story and hypotheses, generate a picture that sums them up. You may use DeepAI for instance.**
