Frontend Intern – React & Mobile App Development

Maven InfoTech B.V. — Remote | Paid internship | 3–6 months

About the role

Maven InfoTech is looking for a Frontend Intern who is interested in modern web and mobile development. The intern will work on responsive user interfaces, convert designs into web pages, and contribute to React and React Native projects.

Main responsibilities

- Convert Figma designs into responsive Tailwind HTML pages.
- Develop clean and interactive user interfaces using JavaScript.
- Build responsive layouts for desktop, tablet and mobile.
- Create reusable and maintainable frontend components.
- Implement animations, transitions and modern UI interactions.
- Ensure cross-browser compatibility and responsive behaviour.
- Work with React.js for frontend development.
- Assist with mobile application development using React Native.
- Integrate APIs and dynamic data into frontend interfaces.
- Optimize website and mobile app performance.
- Collaborate with designers to implement Figma designs accurately.
- Debug and fix frontend UI/UX issues.
- Maintain clean, scalable and well-structured code.

Required technical skills

- Basic knowledge of React.js and JavaScript (ES6+).
- Good understanding of HTML5, CSS3, Tailwind CSS and responsive design.
- Ability to convert Figma designs into responsive layouts.
- Basic understanding of React Native for mobile app development.
- Understanding of modern frontend practices and responsive frameworks.

Additional / preferred skills

- Knowledge of Git or another version-control system.
- Basic understanding of REST APIs.
- Experience with React.js, React Native, Tailwind CSS, HTML, CSS or JavaScript.
- Understanding of mobile-responsive and cross-platform development.

Soft skills

- Attention to detail.
- Good problem-solving skills.
- Good communication skills.
- Good English communication skills.
- Willingness to learn and develop new technical skills.

Education / eligibility

- Currently pursuing or having completed a Bachelor’s degree or Diploma in Computer Science, IT or a related field.
- Final-year students and freshers can apply.
- Suitable for students or aspiring frontend developers who are interested in frontend, UI and mobile app development.

Internship details

- Position: Frontend Intern.
- Duration: 3 to 6 months.
- Location: Remote.
- Internship type: Paid internship.
- A full-time opportunity may be possible depending on performance.
